

# 2019 The Eyrie Vineyards

## PINOT NOIR OUTCROP VINEYARD

### THE VITICULTURE

Elevation: 280' - 360'    Planted: 1982 - 2000    Acres: 5

This vineyard is named for the underlying outcrop of rock ridging perpendicularly to the hillside. Outcrop overlooks our original vineyard. The five acres of Pinot here were planted to Wadenswil clone between 1982 and 2000. The elevation runs from 280' up to 360' and faces north north-east. In spite of the northern exposure, reflected heat from the The Eyrie planting warms the site. Viticulture at all of the estate vineyards is certified organic. In addition we practice regenerative no-till farming, with strict attention paid not just to the vines but to the healthy networks of soil organisms that support them. Not only does this approach avoid the need for artificial irrigation, it also nourishes the vines without the need for additional fertilizer, and captures atmospheric carbon.

### THE VINIFICATION

One of five cuvées that are produced identically, with the same fermentation regimes of wild yeast and small fermentation vessels, followed by aging in blends of cooperage with 12% new oak in each. The result is a fascinating journey up the Dundee Hills, from our lowest elevation Sisters vineyard at 220' up to our highest elevation Daphne vineyard at 860'. Each wine reflects facets of soil, site, exposure, and vine age that together capture a precise portrait of how variations in place can influence Pinot noir.

### THE VINTAGE

2019 was perhaps the most “Burgundian” autumn yet. Typically the Willamette Valley features wet winters and dry summers, whereas Burgundy distributes its rain evenly throughout the year. In 2019 we had a more Burgundian pattern, with rain and cooler days scattered throughout the pre-picking period.

Vines make sugar from air, sunlight, and water. 2019's well-timed rains increased sweetness while still retaining acidity - which leads to some of the best qualities a wine can have: refreshing and food friendly when young, but with superb cellar potential.

### TECHNICAL NOTES

Appellation:	Dundee Hills
Vineyard Certification:	Organic
Estate Vineyard Site:	Outcrop
Fermentation & Aging:	Native yeast, 11 hL open top fermenter, hand punched 2x day, full native malo, aged 23 months
Production in Cases:	195
Bottling Date:	September 2021
pH:	3.86
Total Acidity:	5.1 g/L
Alcohol % by Volume	13.8

### AVERAGE TEMPERATURES & RAINFALL
